

Insulated Roller Shutters

Strength, Style, and Energy Efficiency

Welcome to our premium range of insulated roller shutter doors, designed to deliver unbeatable security, insulation, and durability for homes, businesses, and industrial spaces. Whether you're looking to enhance energy efficiency, boost property protection, or add a sleek finish to your building, our roller shutters are the perfect solution. Explore our versatile options, including our most popular 95mm curved lath, available in galvanised, powder-coated, or plastisol-coated finishes.

Spotlight on the 95mm Curved Lath

Our insulated roller shutter doors shine with the 95mm curved lath, a top choice for its strength, insulation, and sleek design. Opt for galvanised roller shutters with the 95mm curved lath for a corrosion-resistant, budget-friendly finish. Select powder-coated roller shutters with the 95mm curved lath for vibrant, durable colour options, or choose plastisol-coated roller shutters with the 95mm curved lath for superior weather resistance and a textured look. These insulated roller shutter doors excel in insulation and aesthetics.

Why Choose Insulated Roller Shutters?

Insulated roller shutter doors are more than just a barrier—they're an investment in comfort and efficiency. With advanced insulation technology, our shutters help regulate indoor temperatures, reduce energy costs, and provide excellent noise reduction. From warehouses to garages, retail storefronts to commercial properties, our range offers tailored solutions to meet your needs.

Galvanised Finish

A classic, corrosion-resistant option with a sleek, industrial feel. Ideal for those seeking a cost-effective yet reliable solution.

Powder-Coated Finish

Add a splash of colour and extra protection with our custom powder coating. Choose from a wide range of shades to complement your building's design.

Plastisol-Coated Finish

For maximum weather resistance and a bold, textured look, our plastisol coating delivers long-term durability in even the harshest conditions.

Superior Insulation

Keeps heat in during winter and out during summer.

Enhanced Security

Robust construction deters intruders and protects your property.

Custom Finishes

Choose from galvanised, powder-coated, or plastisol-coated options to match your style.

Noise Reduction

Perfect for busy urban environments or industrial estates next to quiet residential areas.

Low Maintenance

Durable materials ensure long-lasting performance with minimal upkeep.
